

Hon. Gregory H. Woods
Daniel Patrick Moynihan

500 Pearl St.
New York, NY 10007-1312

Dear Judge Woods:

I am an Authorized Claimant and class member in In re JPMorgan Precious Metals Spoofing Litigation, Case No. 1:18-cv-10356-GHW.

I am writing to formally object to the proposed distribution motion filed and granted on June 18, 2026, specifically the proposal to accept and pay late-but-otherwise-eligible claims that were submitted after the August 8, 2022 claim deadline.

My objection is not to the calculation of my own claim based on my individual transactions. My objection is to the inclusion of late claims in the pro rata distribution pool. According to the motion materials, 871 late-but-otherwise-eligible claims were accepted even though they were received or postmarked after the original claim deadline. I understand that A.B. Data's position is that these claims did not delay administration, but their inclusion appears to materially dilute the recovery of timely claimants who complied with the Court-approved deadline.

I respectfully request that you reconsider your entry of the order approving of the net settlement fund.

I object to the acceptance of late claims absent a specific showing that accepting such late claims is fair to timely claimants, supported by good cause or excusable neglect, and does not materially prejudice timely claimants. Here, the late claims appear to significantly increase the total Transaction Claim Amount denominator and reduce the pro rata recovery of timely claimants.

I respectfully request that the Court either:

1. reconsider approval of the distribution procedure as currently proposed;
2. exclude late claims from the initial distribution;
3. require Class Counsel and A.B. Data to provide additional detail justifying acceptance of late claims submitted after the deadline; or
4. create an adjustment or separate treatment so timely claimants are not diluted by claims submitted after the Court-approved deadline.

I appreciate your attention to this matter.

Sincerely,

Michael Coscia
